

NIRMAN CONCRETE
THE COMPLETE CONCRETE SOLUTION

HVFA (Green)

MAKE THE WORLD A BETTER PLACE
GREY OUTSIDE GREEN INSIDE

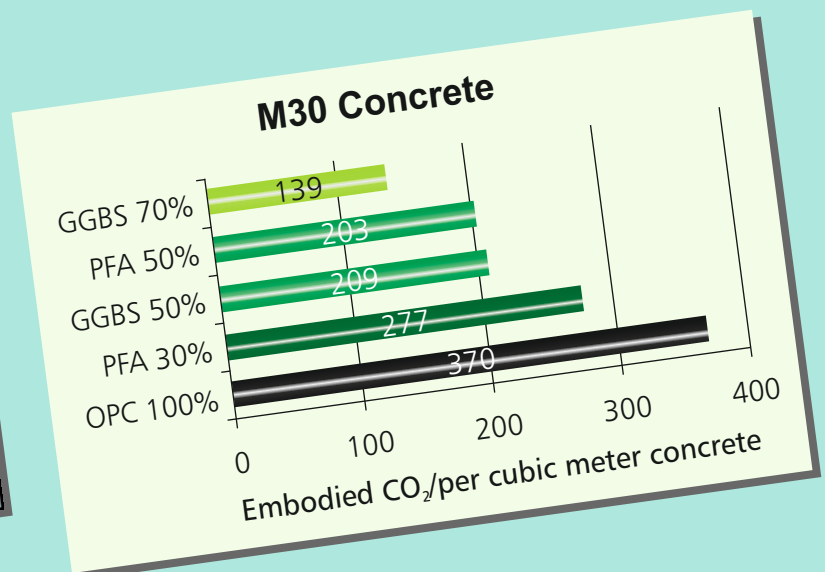

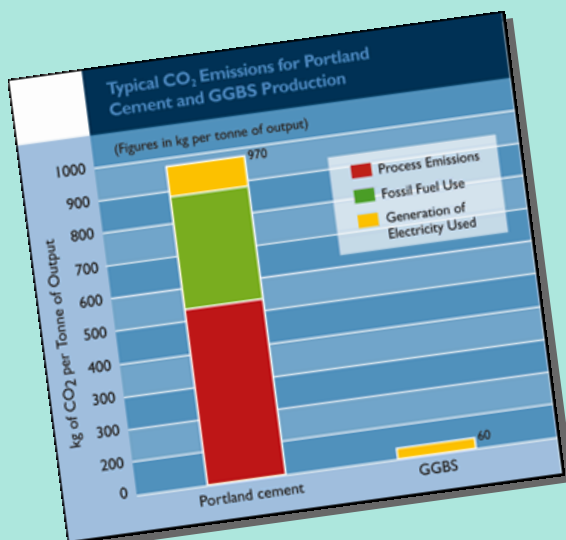

HVFA (Green)

Challenges

Infrastructure Development at the cost of Environment ?

Solution

HVFA (Green) comes to the rescue with its high durability & low environmental impact.

Key Advantages:

- Sustainable and Durable.
- Low Heat of Hydration.
- Continued strength gain up to later ages.
- Mitigates Cracking.
- Better workability

Applications:

- PCC
- Mass Foundations.
- Concrete Pavements.
- Underground Structures.
