

NIRMAN CONCRETE
THE COMPLETE CONCRETE SOLUTION

Marinecrete

Structures built for Generations

Marinecrete

NIRMAN CONCRETE
THE COMPLETE CONCRETE SOLUTION

Challenges

Chlorides & sulphates cause deterioration in concrete.

Solution

Marinecrete for enhancing durability

Key Advantages:

- Durable and sustainable.
- Corrosion resistant.
- Highly impermeable.
- Resistant against chlorides and sulphates.
- Resistant to alkali aggregate reactions.

Applications

- Structures near the coastline.
- Marine structures.
- Sewage treatment plants.
- Bridges in marine environment.
- Sea walls and Armour units.
