

NIRMAN CONCRETE
THE COMPLETE CONCRETE SOLUTION

High strength Concrete

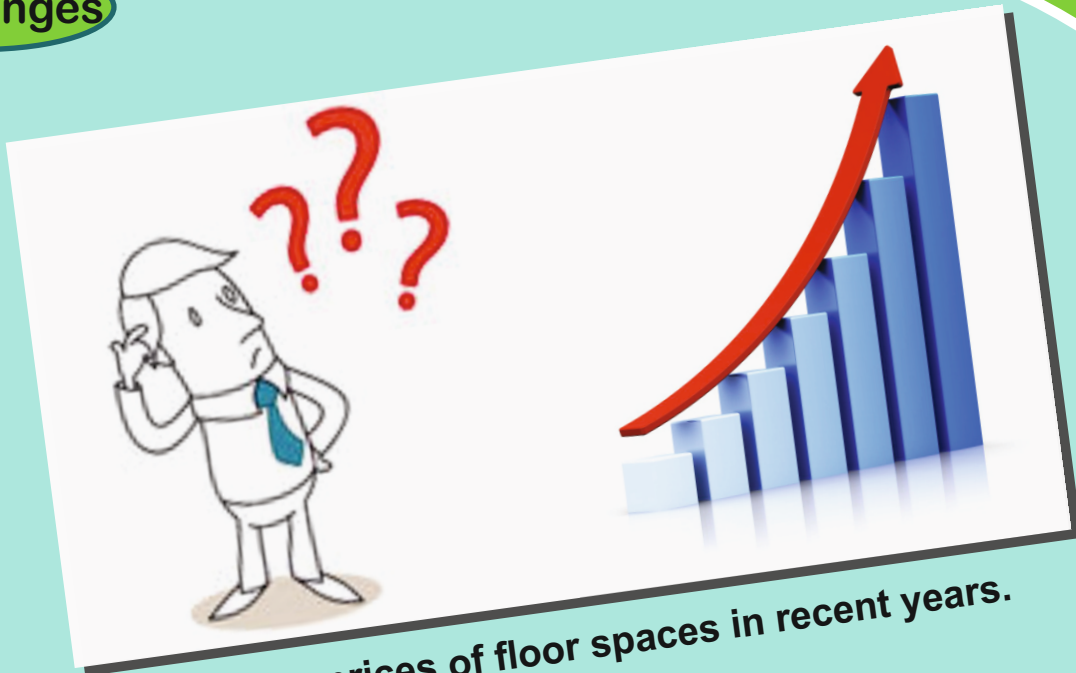

Breaking the height barrier

High strength Concrete

NIRMAN CONCRETE
THE COMPLETE CONCRETE SOLUTION

Challenges

Shooting prices of floor spaces in recent years.

Solution

High Strength Concrete comes to the rescue with increased carpet area.

Key Advantages:

- Jumbo Strength and Dense Concrete.
- Supports high-rise constructions.
- Increased floor space availability.
- High early strength allowing early stripping times and speedy construction.

Applications:

- RCC columns and beams in high rise buildings; columns, beams and girders for mega-urban infrastructure projects.
- Precast structural elements.
- Marine structures.
