Instant Water Logging Solution

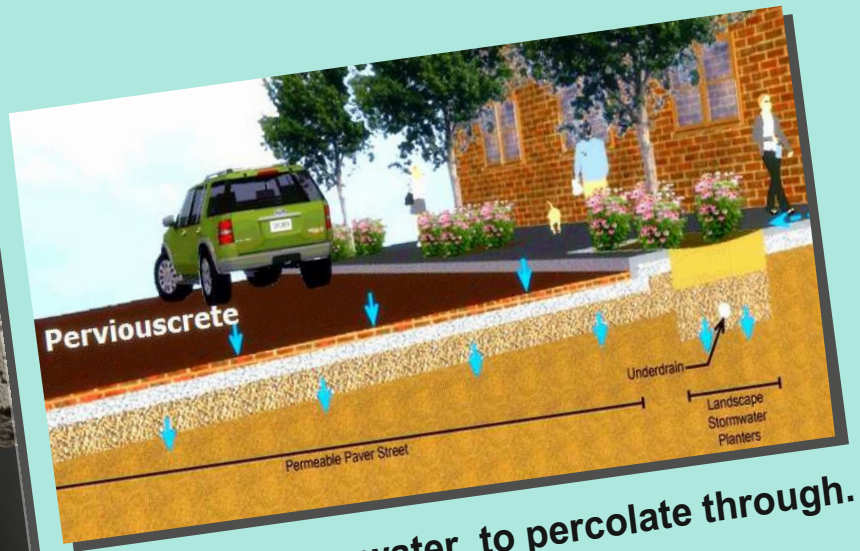

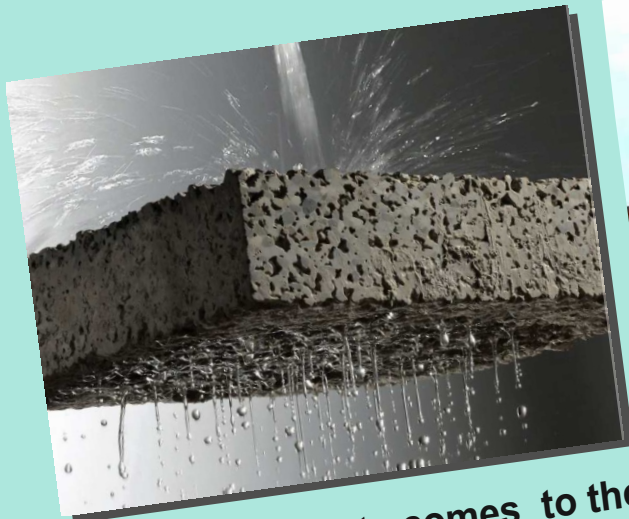

Pervious Concrete

Challenges

Water-logged parking areas.

Solution

Pervious concrete comes to the rescue; allows water to percolate through.

Key Advantages:

- Recharges ground water.
- Rain water harvesting.
- Solves water logging on concrete surfaces during heavy rains.
- Freedom from mosquitoes and other insects breeding.
- Leads to earning points for LEED® Certification.

Applications:

- Rain water harvesting in housing societies.
- Play grounds.
- Nurseries and Gardens.
